DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-4, 6, and 8-14 (now amended 1-11) are allowed over prior art of record. The following is an examiner's statement of reasons for allowance: Shriberg et al. disclose a method for segmenting speech data in that received speech data is analyzed, and a plurality of speech features, including pitch, phone and rhythm duration information, are extracted. determine pitch information or fundamental frequency of the signal. Extracted features are combined, and word boundaries are determined based on the combined features (*referring to reference*). Mckiel, Jr. teaches a method for creating a compressed data representation of a speech utterance which may be utilized to regenerate the original speech utterance. The method includes the step of extracting pitch information from the input speech signal and comparing the extracted pitch information to a threshold to determine if the signal contains voice or un-voice (*referring to col. 3, line 62 to col. 4, line 6*). Both Shriber et al. and Mckiel, Jr. fail to specifically disclose the step of determining if the input signal contains un-voiced information if the fundamental frequency estimates are lower than a threshold value, and if the input signal contains voiced information if the fundamental frequency estimates are higher than a threshold value. The prior art references also fail to teach the step of extracting a prosodic features in region between 500-4000 ms where the fundamental frequency estimates are lower than the threshold; that is non-voiced region of the signal. Furthermore, it would have not been obvious to one of ordinary skill in the art at the time of invention to modify Shriberg et al. and/or Mckiel, Jr. in order to obtain the claimed invention. Therefore, claims 1, 3-4, 6, and 8-14 (now amended 1-11) are allowed over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
